His brazen and honest approach creates camaraderie with the reader, then tests the boundaries with sensitive subject matter. Philosophy, ethics, and nobility square off against a materialistic society driven by instant gratification, with Hammond treading water directly in the middle.

His fictional writing makes a conscious effort to blend perception, rumor, and fact leaving the reader to question reality. His stories often taking place in historical settings or playing on modern headlines, Hammond uses common themes to drive home critical points about the human condition. Though often grand, epic, and futurist, the backbone of his novels hinge on honor and virtue, or lack thereof.

Hammond has a very unique background as a music and sports industry professional. He has worked for Major League Baseball as a Marketing Coordinator, was an Assistant of Arizona Operations in the Kansas City Royals farm system, and a Stadium Manager of the Los Angeles Angels Spring Training facility. He is also credited as a Marketing Representative for Sony Music Entertainment, a Senior Tour Manager for the Vans Warped Tour, and an intern at WAR Records / United Interests Management.

SW was born just outside of Denver, CO and hasn't stopped moving since.

Aside from Colorado, growing up Hammond also lived in Maine, California, Utah, and Hawaii. As an adult he returned to Colorado and Utah, also adding Arizona and Nevada to the list. He currently resides in Las Vegas. Hammond has never been married and has no children.
